

Capability Statement

Core Competencies

- **National Security Consulting:** Strategic risk assessments, threat analysis, and tailored security solutions for critical infrastructure protection and operational resilience.
- **Procurement:** Sourcing and procurement of materials and equipment for critical infrastructure projects, including vendor management, contract negotiation, and quality control.
- **Logistics:** Efficient and secure movement of goods and materials, encompassing transportation, warehousing, inventory control, and customs brokerage.
- **Construction:** Construction services for critical infrastructure, including planning, execution, quality control, and safety compliance.
- **Professional Services:** Staff augmentation solutions to enhance client teams with skilled personnel for critical infrastructure projects.

Differentiators

- **Supply Chain Expertise:** OSS specializes in critical infrastructure, logistics, construction and procurement. This focused expertise ensures an understanding of unique challenges and compliance requirements, setting them apart from general contractors.
- **Global Reach with Caribbean Focus:** OSS operates globally with established international networks, enabling scalability for large projects.
- **Strong Partnerships:** OSS leverages collaborations with reputable partners to access specialized skills and resources.

Past Performance

OSS leadership boasts a combined 35 years of experience supporting the US federal government in national security and resource management. This unparalleled expertise ensures efficient navigation of complex federal contracting and regulatory landscapes.

Company Data

Company History

Oculus Strategic Solutions LLC (OSS) was founded in 2023 with a mission to provide comprehensive and integrated solutions for critical infrastructure. Drawing upon decades of combined experience within our team, OSS offers unparalleled expertise in national security, resource management, and logistics. We are dedicated to delivering high-quality, efficient solutions.
